

The drawing shows a mechanical assembly with the following components and dimensions:

- 1:** A horizontal pipe or tube connecting two vertical supports.
- 2:** A vertical rod or shaft passing through the center of the assembly.
- 3:** A small component, possibly a valve or connector, located on the vertical rod.
- 4:** A small rectangular component, possibly a sensor or actuator, located below the vertical rod.
- 5:** A trapezoidal component with a top width of 115mm and a bottom width of 20mm. It has a central vertical slot and a small circular feature on its right side.
- 6:** A small component, possibly a sensor or actuator, located on the left side of the trapezoidal component.
- 7:** A small component, possibly a sensor or actuator, located on the right side of the trapezoidal component.
- 8:** A large, conical component, possibly a bellows or a large valve, located at the bottom right of the assembly.
- 9:** A small component, possibly a sensor or actuator, located at the bottom of the large conical component.
